1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

**Claim 4:**

Line 1, before "dynamic", --complementary-- has been inserted;

Lines 5, 6, 9 and 10, after "logic", --circuit-- has been inserted.

**Claim 7:**

Line 1, before "dynamic", --complementary-- has been inserted;

Lines 5, 6, 9 and 10, after "logic", --circuit-- has been inserted.

The changes have been made to provide proper antecedent basis in order to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest a first logic gate having a first input and a second input, wherein said first input is connected to a first precharged internal node of said complementary dynamic logic, and said second input is connected to a first differential output of said complementary dynamic logic, a second logic gate having a first input and a second input, wherein said first input is connected to a second precharged internal node of said complementary dynamic logic, and said second input is connected to a second differential output of said complementary dynamic logic as called for in claims 1, 4 and 7. Therefore, claims 1-9 are presently allowed.
